

## Analysis of responses from the Parents' Forum

Thank you to all the parents and carers who have completed questionnaires, telephone surveys, etc. Your responses have been very helpful as we continue to improve as a school. Below are some of the things you said, and some of the things we are going to put in place as a result.

What you said	What we will do
We would appreciate a Glebe app to help with digital communication between school and home.	Look into the cost of providing a Glebe school app.
More could be done to reward children who are always on time for school.	A half termly award will be introduced for children who are not late for a whole half term.
We would like more personal and social information, not just work related, on termly reports.	We will add a box onto the 'Pupil Attitude Tracker' so teachers can make a more personalised comment about your child.
We would like to know more about what, how and when our children receive praise in school.	Purchase 'Praise Pads' so teachers can send a small note home stating when and why children have received praise throughout the day.
The quality of transitions were much better for the start of this year.	Continue with the new systems put in place last year.
We would like a third parent's evening.	Add a 'Drop-In' to the summer term.
We would like some Reception specific information in the school prospectus when it is handed out to parents of children starting in Reception.	Add a 'What to expect on your first day, week, month, leaflet. Along with information about where to drop off and collect the children.

Please continue to pass on your feedback to us.

Thank you  
Miss Conroy
